

USER GUIDE

CATALOG TAB

The Catalog tab provides a central location for viewing all of your content currently available on Pandora.

The screenshot shows the Pandora AMP interface for an artist's catalog. At the top, there's a search bar and a 'Next Big Sound' button. The artist's profile for 'Yoke Lore' is featured, showing a circular profile picture and '20,601 Listeners'. Below the profile are navigation tabs for 'Activity', 'Campaigns', 'Catalog' (which is selected), and 'Profile'. A 'Create Campaign' button is also visible.

The main content area is titled 'Artist Catalog' and includes a promotional message: 'Give your fans Pandora Premium! Share Premium Access links so ad-supported listeners can enjoy your music on-demand after watching one short video ad.' Below this is a search bar for the artist's catalog.

The catalog is presented as a table with the following columns: 'Sort By' (set to 'Relevance'), 'Publishing Blocked', 'Premium Access', 'Release Date', and 'Share Link'. The table lists six tracks:

Sort By	Relevance	Publishing Blocked	Premium Access	Release Date	Share Link
	Safe and Sound Safe and Sound (Single) 4m 38s	RESOLVE PUBLISHING	✓	May. 14, 2019	COPY LINK
	Chin Up Chin Up (Single) 4m 25s	—	✓	Mar. 29, 2019	COPY LINK
	Beige (unburdened) Beige (unburdened) (Single) 3m 16s	—	✓	Mar. 01, 2019	COPY LINK
	Fake You Absolutes 3m 43s	—	✓	Jul. 27, 2018	COPY LINK
	Cut and Run Absolutes 3m 53s	—	✓	Jul. 27, 2018	COPY LINK
	Homing Absolutes 3m 37s	—	✓	Jul. 27, 2018	COPY LINK

The Catalog tab provides a central location for viewing all of your content currently available on Pandora. From this page, you can view the status of your releases and pull Premium Access links to share with fans – giving them a free 30 minute session of Pandora Premium beginning with your track after watching a brief 15-second video ad. Thanks to an integration with Music Reports and Songdex, you can also resolve publishing rights directly from this page.

The Catalog tab is available on each individual artist's AMP profile and includes a comprehensive list of the artist's catalog at the track level.

USING THE CATALOG TAB

The Catalog tab shows a comprehensive list of your releases on Pandora in reverse chronological order starting with the most recent release. You can customize the display order by clicking any column header or the "Sort By" drop-down and selecting from the list of options:

- Relevance: Most recent releases in reverse chronological order
- Track Name: Alphabetized by title
- Album: Alphabetized by album name
- Track Length: Organized by runtime, shortest to longest
- Explicit: Sorted with explicit tracks sent to the bottom of the list
- Radio Only: Sorted with songs not available on Pandora Premium (therefore only available on Pandora Radio) sent to the bottom of the list

Note: You can also search for a specific track using the search bar above the track list

TRACK INFORMATION

Each entry on the list will include the track name, album name, track length, original release date of the track, and any relevant publishing blocks, Premium Access links, and badges.

Badges may include:

- “Radio Only”: Track can be included in a Radio Station, but not a Playlist
- “Premium Only”: Track can be included in a Playlist, but not a Radio Station
- “No Premium Access”: Track will be unavailable to non-subscribers who are listening to Pandora Premium via engagement with a video advertisement
- “Unavailable”: Track cannot be included in any Program
- The Explicit (“E”) badge will accompany tracks that contain explicit content. Please be aware that this information is not always accurately provided by partners.

PREMIUM ACCESS

When you share your tracks with fans using a direct link, you give the gift of Premium Access, allowing your fans to enjoy your music or comedy on-demand, with all the features Pandora Premium has to offer. Listeners can search for and play specific tracks, listen to and create playlists, and download music for offline listening.

A checkmark under the “Premium Access” column indicates that the track is available on Pandora Premium and can be shared with fans via the automatically generated Share Link.

When a Pandora Premium subscriber clicks on this link, they will be brought directly to your track. Any other Pandora user will be presented with the option to watch a 15-second video advertisement to unlock a [free session of Pandora Premium](#), beginning with your track.

MRI

Music Reports (MRI) helps artists track and manage their music rights, licensing, and royalties. Using our integration with MRI's Songdex platform, you can easily resolve any publishing issues preventing your music from being available on any of Pandora's three tiers of service.

Tracks that have publishing blocks will be noted by a "Resolve Publishing" button alongside the tracklisting on the Catalog tab. Click this button and complete the following steps to address the related publishing issues. You do not need an existing MRI account, and can create an account in real time if needed.

The screenshot shows the Pandora Artist Catalog interface. At the top, there is a header "Artist Catalog" and a promotional message: "NEW Give your fans Pandora Premium! Share Premium Access links so ad-supported listeners can enjoy your music on-demand after watching one short video ad." Below this is a search bar with the text "Search within artist catalog". A "Sort By" dropdown menu is set to "Relevance". The main content area displays a table with columns: "Publishing Blocked", "Premium Access", "Release Date", and "Share Link". The first row shows a track titled "Safe and Sound" with a duration of "4m 38s". The "Publishing Blocked" column for this track contains a red button labeled "RESOLVE PUBLISHING". The "Premium Access" column shows a checkmark, and the "Release Date" is "May 14, 2019". The "Share Link" column contains a "COPY LINK" button.

	Publishing Blocked	Premium Access	Release Date	Share Link
 Safe and Sound Safe and Sound (Single) 4m 38s	RESOLVE PUBLISHING	✓	May 14, 2019	COPY LINK

1. Log in to your Songdex account (or create an account if needed)
2. Select "Claiming" from the left-side menu
3. Search for and select the applicable song
4. Enter in the splits
 - Please note that "SOC" refers to Performing Rights Organization
5. Click "Save Composition"
6. Click "Finish Claim" at the bottom of the right-side column
